

2022

Q1 & Q2

CO₂-performanceladder

Objective

By 2023, FinCo Fuel Group aims to emit 30% less CO₂ than in 2019.

Scope 1: **7.335,9 ton**
 Scope 2: **11,4 ton**
 Business travel: **7,5 ton**

Emissions kg CO₂/m³ per transported product:

2019 > **4,73** | 2020 > **4,90**
 2021 > **3,53** | 2022 > **4,96**

In 2022 FinCo Fuel has further sharpened its ambitions,

Part of this is to further reduce the CO₂ footprint on both products and processes through the reduction system in accordance with the CO₂ Performance Ladder 3.1 with attention to registration and implementation.

How we reduce CO₂

- Time charters on HVOx
- LED lighting at depots
- Encourage use of public transport
- Encourage electric driving
- Introduction of a bicycle plan
- Compensate for air travel via KLM Biofuel Programme
- Use biological lubricants
- Install solar panels where possible
- Entire organization on biogas
- Entire organization on 100% green electricity

Our emissions are equivalent to

Gas and electricity consumption of 1.693 households for a whole year

Driving around the earth 1.012 times by car

4.564 return trips by plane from Amsterdam to New York

Growing 394.548 trees for a whole year

Initiatives

Finco Fuel Group is affiliated to Nederland CO₂ Neutraal, enabling the exchange of knowledge and experience with other companies about sustainability. Dalergy and Gulf are also members of Lean & Green.

What can you do?

- CO₂ conscious driving
- Using the tyre pump
- Working paperless as much as possible
- Separating waste
- Come up with ideas how we can save even more CO₂
